EXPERIENCE

Applications Supervisor — Product Owner, uvGO User Management

May 2008 — Jun 2026

Universal Weather and Aviation - Houston, Texas

- Owned IAM capabilities across customer and administrative products, leading Scrum delivery through Azure DevOps.
- Helped select Okta and Oso Cloud, then defined RBAC data structures and administration workflows adopted across uvGO modules.
- Architected user management for 10,000+ pilots and dispatchers and led teams of 9+ developers and remote contractors.
- Designed identity onboarding across legacy systems, uvGO Admin, and Okta; led the 2019 World Fuel integration.

Founder / Principal Consultant

1997 — Present

Gremillion Consulting

- Founded ColorCombos.com, a hand-built LAMP color resource used by millions over 20+ years and cited in books and magazines.
- Modernizing the platform with AI-assisted development, content, and SEO.
- Acted as Product Owner for Todo Bug, an iOS application shipped to the App Store.

Oracle Developer (Contract)

Jul 2006 — May 2008

Litton Loan Servicing · Extreme Technologies - Houston, Texas

- Built PL/SQL data-loading processes and real-time synchronization for an enterprise customer-service application.

Applications Architect / Oracle Programmer

Aug 1995 — May 2006

Universal Weather & Aviation - Houston, Texas

- Led uvFastTrack product planning, architecture, development, and documentation in a Linux/Apache environment.
- Built reusable fuel-estimation APIs and delivered the company's first dynamic fuel pricing and online trip products.
- Introduced the company's first cloud use with AWS S3 and established its first ITIL change-management process.

Software Engineer

Jun 1992 — Jan 1995

Loral Space Information Systems - Houston, Texas

- Designed relational data architecture, ER diagrams, data dictionaries, and integration plans for NASA Mission Control systems.
